Subject: Boat Launch

WLCL,

This will confirm that you have requested that the paying members of the Beaumont's 7 Harbors White and Duck Lake Association subsidize the entire lake, including the people who owe money to our Association, by leaving its boat launch gate open for the benefit of everyone on the lake. You made this request in your capacity as manager of WLCL which, per your website, addresses lake-related matters of interest to all. I suggested that the WLCL make a donation to the Beaumont's Seven Harbors White and Duck Lake Association of \$4,000 for the repair and maintenance needed as a result of the excessive use that our launch and roads have endured this summer from the unauthorized use of our private launch and private roads. In light of the \$20,000 the WLCL spends on fireworks, I believe that White Lake boat owners would rather the money be used to serve their interest in getting their boats out of the water before the freeze than they are in the fireworks. If you are truly interested in serving the interests of White Lake you should step up to the plate on their behalf and make this contribution to Beaumont's Seven Harbors White and Duck Lake Association.

I noticed that you did find an alternate launch and posted it on your website. I note that the alternate likewise was not willing to leave its gate open and has allowed limited dates and hours. The dates listed have already passed. Please update the dates for the alternate launch. I have received calls and I have directed the callers to your website.

Very truly yours,
Denice M. LeVasseur
